

BULLETIN

NOVEMBER 4, 2024 | BULLETIN 45-24

TO: All Greenheck Representatives
FROM: Michael Bulzomi
Product Manager, Dampers
SUBJECT: Damper Stock Product Changes

Currently in CAPS® Live, damper stock products are listed under two places in the product tree:

- Stock Products/Dampers
- Accessories/Dampers for Fans

In the December CAPS® 4.46 release, all stock dampers will only be located under Stock Products/Dampers.

Why the change?

This update makes it easier to find stock dampers by consolidating them in one place.

Job Conversion Details:

December 2024 CAPS 4.46 release

Jobs originally created in releases prior to CAPS 4.46 will convert regardless of which product tree location the dampers were selected from.

April 2025 CAPS 4.47 release

Dampers originally selected from the Accessories/Dampers for Fans product tree location will not convert and will need to be re-selected under Stock Products/Dampers.

If you have any questions, please reach out to the Damper team at dampers@greenheck.com or 800-717-6540.
