

Application

The grille tab option for fire, combination fire smoke, and smoke dampers provides mounting tabs on the sleeve to ease installation of grilles in the field. The tabs are made out of 20 ga. (1 mm) galvanized steel $\frac{3}{4}$ in. x 2 in. long (19 mm x 51 mm). The flanges are concealed when the grille is installed. The grille option is limited to 48 in. x 48 in. (1219 mm x 1219 mm).
