

Cable Operator

Cable operator is a worm gear unit to manually control balancing dampers from a remote location. The cable operator will come factory installed on the MBDR-50 and shipped loose on the MBD-10 and MBD-15.

Part Number for MBD-10: 1036729

Part Number for MBD-15: 1036711

Cable

Each 3 ft. (.9 m) cable length is supplied with a coupling and P-clip to secure the cable.

Part Number: 1036543

Round Ceiling Cup

A galvanized steel mounting bracket for cable support with a UL94V-0 fire rated nylon cap to seal a ceiling access hole. The round ceiling cup is supplied with 3 ft. (.9 m) of cable, two nylon caps for different ceiling thickness, and a P-clip for securing cable.

Part Number: 1036541

Square Wall/Ceiling Plate

A galvanized steel mounting bracket for cable support with a cover plate. The square wall/ceiling plate is supplied with 3 ft. (.9 m) of cable, cover plate, and a P-clip for securing cable.

Part Number: 1036542

Cable Operator Accessory

This diagram shows the two options for the installation of the cable operator. The round ceiling cup gets installed to a structural member at the ceiling line. The square wall/ceiling plate option can be installed in a wall or ceiling application. Use 1/4 in. bit driver to rotate cable until set screws on cable operator gear are orientated such that they are accessible with a hex key.
